

The Real Estate Investment Group Opens Phase 2 Properties in the Camino Del Rio Community in Belize.

Lanham, Maryland (April 2008). TAREIG, LLC, a Maryland based real estate development company announces the pre-construction sale of the Phase 2 home-sites in the Camino Del Rio Community in central Belize. With over 72 wooded and creek-side home-sites to offer, this 63 acre waterfront site along the Caves Branch River is one of Belize's premiere living communities. This planned community of residential homes and eco-adventure is being developed as a deluxe residential community in the Cayo District of Belize, just ten miles east of the country's capital Belmopan. The master plan consists of beautiful parcels located in the midst of a natural jungle with a park-like setting and an environmentally friendly layout.

With over 50% of Phase 1 parcels sold, the next phase of lots offer a great deal at pre-construction prices. Four all-concrete Mediterranean style models offer spacious one and two level accommodations providing two to five bedrooms and lots of custom amenities. Generously-sized private lots are available from one-quarter to one acre, with pre-construction prices starting at \$20,000 (USD). A complimentary 2-night stay is offered as part of the incentive to visit Belize and the community, and to finalize site selections.

On-site amenities include a community center with a pool, miles of walking and biking trails, bird watching towers, private and open relaxation areas, and entertainment patios. Nearby attractions for outdoor adventure, nature and animal preserves, beaches, and ancient Mayan ruins and caves are all within a short drive.

Belize is ranked one of the top ten best-selling adventure travel destinations in the world and one of Central America's favorite locations for travelers that enjoy water sports, adventure, and relaxation.

TAREIG's corporate philosophy incorporates the partnering with local craftsman and vendors to stimulate the economy by providing employment opportunities in the local community. We primarily use talent and skilled labor from the nearby Franks Eddy village to develop community involvement and to encourage service support from other local businesses.

About TAREIG, LLC
